If this particular home doesn't suit your needs, why not build a *custom home*?

The Platinum Advantage

- We build **all size/type homes**, in **all price ranges**.
- We build on **all types of parcels**: acreage, in-fill lots, etc.
- **We guarantee a move-in date** in all custom-build contracts, which is backed-up by a penalty if we don't meet the deadline.
- **All projects are directly supervised by the owner**; projects are not delegated to a superintendent or salesperson.
- We use **fixed-price contracts**, rather than the unpredictable "cost-plus" method.
- We allow **Do-It-Yourself participation**, for those clients interested in having a part in the construction of their new home.
- We build the **client's plans**. And when a client does not have house plans, we can help with the design process.
- We offer **vacant land consultations** at no charge, to help clients evaluate vacant land prior to purchasing.
